## ✓ You can make a difference & see your impact

At ExIn, your efforts & expertise will count from day one. We look beyond the status quo & push boundaries of current thinking, finding creative solutions to help saving & improving lives.

## ✓ You are rewarded & looked after

We care about our people, we listen & find solutions. We value each person, professionally & personally. On top of a competitive salary, we offer a benefits package based on your individual performance & contribution.

## ✓ You can grow with us

We have experienced growth both of our team & topline revenues over the last years. We thrive on the knowledge & expertise of our consultants, our competitive advantage. Everyone has the opportunity to grow within & with the company, based on personal performance, skills & interest.

## ✓ You join an international, diverse team

You will collaborate with colleagues from around the world who have different nationalities, cultures & professional backgrounds – in an environment where everyone's input is valued.

## ✓ We shape the future

We develop innovative solutions that truly contribute to sustainable healthcare systems around the world. We believe that our passion for healthcare & what we do is building a better tomorrow, starting today!

## ✓ Flexibility & freedom

We help our consultants to balance their professional work & personal life commitments. We offer flexible working hours & models such as home office. We only accept projects in new areas provided we can deliver quality.

## ✓ Transparent career progression & development

Our career opportunities & trainings are led by our senior members & external training providers. No matter which role you start in, your professional development will be supported through the company's coaching & mentoring system, helping you to grow to your full potential.

## ✓ Non-hierarchical structure

An open line between all levels gives you a higher level of responsibility & accountability for your work, as well as bigger stakes in outcomes. It encourages functional diversity & creativity, because employees are not confined to specific areas of specialization.
